INDEX OF SUBJECTS VOLUME 26

A

Acrosome reaction vesicles, calmodulin-binding proteins in 849
Acrylamide treatment in cultured rat keratinocytes, cytoplasmic desmosomes and intermediate filament disturbances following 43
F-actin, age-related changes in BDF_1 mouse Sertoli cell 447
Adenylate cyclase, frog choroid plexus, ultrastructural and cytochemical analysis 9
ADH *see* Vasopressin
Adipocytes, hormones regulating structural changes in female earwig 587
Adipose tissue, brown, quantitative evaluations of gap junctions in rat after cold acclimation 667
Ageing, effect on cytoskeletal components of BDF_1 mouse Sertoli cell 447
Alkaline phosphatase, activity in hepatopancreas of snail 413
Almond wasp *see Eurytoma amygdala*
Alpha-fetoprotein, localization during formation of neural tube and somites in chick embryo 579
Alzheimer's disease, failure of long-term intracerebral transplants of fetal hippocampus from mouse trisomy 16 to exhibit Alzheimer's disease neuropathology 477
Ameloblasts, secretory, ultrastructure of quick-frozen ameloblasts of rat molar tooth 29
Angiotensin converting enzyme activity, aortic wall layers 943
Annulate lamellae, ascidian oocytes 403
Anoplura, tuft organs of *Pediculus humanus corporis* 259
Antenna, honeybee, morphological analysis of cells growing in primary cultures 551
—, sensilla, morphological characteristics in European cornborer 489
Aortic wall, rat, selective isolation of wall layers and their cell types in culture 943
Apis mellifera, antennal cells in primary cultures, morphological analysis 551
——, midgut, endocrine cells 223
——, midgut, organisation and ultrastructure of regenerative crypts 231
Ascidians, porous membranes in oocyte of *Botryllus schlosseri* 403

B

Bone formation, ectopic, matrix protein expression *in vitro* and *in vivo* by marrow stromal cell line 661
Brain, mesenchyme cells, in flatworm 123
Bullfrog, *see Rana catesbeiana*

C

Calcium-binding proteins, kidney of *Xenopus laevis* 75
Calmodulin-binding proteins in membrane vesicles released during acrosome reaction and in perinuclear material in isolated acrosome reacted sperm heads 849
Capillary surface in pigeon flight muscle, effect of flying activity 57
Carbendazim, induction of morphological changes in rat Sertoli cells 917
Cell culture, honeybee antennae, morphological analysis 551
——, primary, aortic wall cells 943
Cell death, traumatic, in pressure-bearing tendons of *Rana catesbeiana* 841
Cell degeneration, Müllerian and Wolffian ducts of fetal rabbit 323
Cell junctions, subgenual organ in *Chrysoperla carnea* 249
Cervical carcinoma, characterization of Müllerian inhibiting substance binding on cells 467
Chaetognath, development of locomotory muscle, quantitative and qualitative aspects of body and muscle tissue development 333
————, stereological study of fibre growth and differentiation processes 349
Chick, embryo, behavior of heart cells 203
—, embryogenesis, localization of alpha-fetoprotein during 579
Chitin, *Diabrotica undecipunctata* peritrophic membrane 431
Cholinesterase activity during development in Hydroidomedusae 523
Choroid plexus, frog, ultrastructural and cytochemical analysis for adenyl cyclase 9
Chromogranin, immunoreactive cells in fish stomach 309
Chrysoperla carnea, structure of subgenual organ 249
Cnidaria, isolation of nucleic acids from 613
—, localization of some neurotransmitters during development in Hydroidomedusae 523
Coleocentrotus soldanskii, germ cell cluster formation and oogenesis 699
Collagen, fibrillogenesis in egg capsule of dogfish, effect of pH 649
—, interaction with hydrophobic protein granules in egg capsule of dogfish 155

—, ultrastructure of fibrils of egg capsule of dogfish 385
Collagen lattice model, investigation of contractile properties of Dupuytren's fibroblasts 747
Compressive forces, pressure-bearing tendons of *Rana catesbeiana* 841
Connectin, biodiversity of epitopes in sarcomeres of lamprey, electric ray and horse mackerel skeletal muscles 677
Corneal endothelium, identification of topographical variations in sizes of cells 621
Crustacea, gill epithelial cells, structural changes under osmotic stress 767
CsSki cell, characterization of Müllerian inhibiting substance binding on 467
CTAB *see* Hexadecyltrimethyl ammonium bromide
Cytochemical assay, adenyl cyclase in frog choroid plexus 9
Cytokeratins, age-related changes in BDF_1 mouse Sertoli cell 447
—, in cytoplasmic desmosomes and intermediate filament disturbance following acrylamide treatment 43

D

Deciduoma, intercellular junctions in pseudopregnant mouse 639
Dendrite diameter and action potential amplitude in sex pheromone specific neurons in male European cornborer 503
Desmoplakin I/II, distribution in endometrial cells of mice in artificially induced decidua 639
Desmosomes, cytoplasmic, disturbance following acrylamide treatment in cultured rat keratinocytes 43
Diabrotica undecimpunctata, structure and formation of peritrophic membrane 431
Diflubenzuron, ingested, effects on ovarian development during sexual maturation of mealworms 439
Digestive gland, snail, localization and distribution of alkaline phosphatase activity 413
DNA, isolation from sea anemone 613
Dogfish *see Scyliorhinus canicula*
Dogs, hairless, lectin histochemistry on skin of descendants of Mexican hairless dogs 19
Down's syndrome, murine trisomy 16 model, failure of long-term intracerebral transplants of fetal hippocampus to exhibit Alzheimer's disease neuropathology 477
Dupuytren's disease, generation of contractile force by cultured fibroblasts 747

E

Ecdysteroids, in regulation of structural changes of female earwig 587
Egg capsule, dogfish, collagen fibrils 385
———, effect of pH on collagen fibrillogenesis 649
———, interaction of collagen with hydrophobic protein granules 155
Eggshell, *Eurytoma amygdala*, micropylar appendage 569
———, morphogenesis and fine structure 559
Electric ray skeletal muscle, localization of connectin epitopes 677
Endocrine cells, gastric, regulatory peptides in rainbow trout 309
Endocytosis, surface membrane remodeling during 189
Endometrium, pseudopregnant mice, distribution of desmoplakin I/II 639
Endothelium, corneal, identification of topographical variations in sizes of cells 621
—, regeneration in canine and feline thoracic duct 807
—, thymus, transferrin transport across 575
Ependymal cells, injury-reactive, growth factor modulation of proliferation and migration 599
Epidermal growth factor, spatial distribution in chick heart muscle cells 203
———, submandibular gland, relationship with spermatogenesis in C3H mice 285
Epidermis, of hairless descendants of Mexican hairless dogs, lectin histochemistry 19
—, insect, localization of integument peptides from particular routing categories 707
Epithelium, calf gallbladder, ultrastructural, histochemical and electrophysiological study 827
—, renal, surface membrane remodeling following removal of vasopressin in toad 189
—, tracheal, adherence of *Pseudomonas aeruginosa*, effect of anti-exotoxin A 181
Epitopes to connectin, localization in sarcomeres of lamprey, electric ray and horse mackerel skeletal muscles 677
Estradiol benzoate treatment, ultrastructural changes in adult rat thymus following 169
Eurytoma amygdala, eggshell, micropylar appendage 569
———, morphogenesis and fine structure 559
Exotoxin A, effect of anti-exotoxin A on the adherence of *Pseudomonas aeruginosa* to hamster tracheal epithelial cells 181

F

Fat body, fine structure changes in female earwig 587
Fibrillogenesis of collagen in egg capsule of dogfish, effect of pH 649
Fibroblasts, contractile force in Dupuytren's disease 747
Flagellum, spermatozoon of bloodsucking bug, structural specialization 299
Flatworm, mesenchyme cells 123
Flight muscles, insects, myosin filament structure, relation to paramyosin content 83
——, pigeons, effect of flying activity on capillary-fiber geometry 57
FMRFamide, circumoesophageal ganglia of *Helix aspersa* 115
Follicle cells, eggshell of almond wasp 559

Follicle-stimulating hormone (FSH), effect on germ cells in stages XIV and I of rat spermatogenic cycle 375
Folliculo-stellate cells, immunohistochemical study of post-natal development in rat anterior pituitary gland 1
Fractal analysis, quantification of tight junction complexity 901
Freeze-fracture, quantitative evaluations of gap junctions in rat brown adipose tissue after cold acclimation 667
—, in study of mesophyll cell membranes in embryonic *Phaseolus* leaf 133
—, study of structural specialization in flagellum of *R. prolixus* spermatozoon 299
Freeze-substitution following quick freezing of secretory ameloblasts of rat molar tooth 29
Freezing, quick *see* Quick freezing
Frog, choroid plexus, ultrastructural and cytochemical analysis for adenyl cyclase 9

G

Gallbladder epithelium, calf, ultrastructural, histochemical and electrophysiological study 827
Gammarus duebeni, structural changes in gill cells under osmotic stress 767
Ganglia, cerebral, flatworms, mesenchyme cells in 123
—, circumoesophageal, immunocytochemical localization of neuropeptide F-immunoreactivity in *Helix aspersa* 115
Gap junctions, *Peripatus* 143
——, quantitative evaluations in old rat brown adipose tissue after cold acclimation 667
Gill epithelial cells, *Gammarus duebeni*, structural changes under osmotic stress 767
Glia, primitive, mesenchyme cells in flatworm as 123
Glial cell cultures, cockroach, morphological developments and voltage-gated potassium channels 209
Granulated cells, midgut of adult worker honeybee 223
Growth factors, modulation of injury-reactive ependymal cell proliferation and migration 599
Growth hormone, acute effects on proliferating rat liver cells 457
Growth pulsations, hydroid polyps, X-ray microanalysis of ion contents in vacuoles and cytoplasma of growing tips 687

H

Harderian gland, toad, effect of sex hormones on lipid content and mast cell number 797
Heart muscle cells, spatial distribution of epidermal growth factor in chick 203
Helix aspera, neuropeptide F-immunoreactivity in circumoesophageal ganglia, immunocytochemical localization using electron microscopy 115
Hemimetabola, single-walled multiporous sensilla, morphology and ontogeny 239
Hexadecyltrimethyl ammonium bromide, use in isolation of nucleic acids from sea anemone 613
High performance liquid chromatography (HPLC), analysis of visual pigments in pineal complex of Japanese quail, Japanese grass lizard and bullfrog 101
Hippocampus, long-term intracerebral transplants of fetal hippocampus from mouse trisomy 16, failure to exhibit Alzheimer's disease neuropathology 477
Honeybee *see Apis mellifera*
Horse mackerel skeletal muscle, localization of connectin epitopes 677
HPLC *see* High performance liquid chromatography
Human growth hormone, acute effects on proliferating rat liver cells 457
Human immunodeficiency virus-host cell interactions, electron microscopic analysis 539
Humidity sense, human body louse 259
Hydroid polyps, X-ray microanalysis of ion contents in vacuoles and cytoplasma of growing tips as related to osmotic changes and growth pulsations 687
Hydrophobic protein granules, interaction with collagen in egg capsule of dogfish 155
Hygroreceptor, human body louse 259
Hymenoptera, endocrine cells in midgut of honeybee 223
—, functional morphology of subgenual organ of carpenter ant 735
—, germ cell cluster formation and oogenesis 699
—, micropylar appendage of eggshell of almond wasp 569
—, morphogenesis and fine structure of eggshell of almond wasp 559
—, regenerative crypts in midgut of honeybee 231

I

Immunocytochemistry, analysis of visual pigments in pineal complex of Japanese quail, Japanese grass lizard and bullfrog 101
—, characterization of Müllerian inhibiting substance binding on cervical carcinoma cells 467
—, distribution of desmoplakin I/II in endometrial cells of mice in artificially induced decidua 639
—, identification of insulin-like peptides in cerebral ganglia neurosecretory cells of *Mytilus edulis* 891
—, localization of neuropeptide F-immunoreactivity in circumoesophageal ganglia of *Helix aspersa* 115
—, post-natal development of folliculo-stellate cells in rat anterior pituitary gland 1
Immunogold labelling, in localization of neuropeptide F-immunoreactivity in circumoesophageal ganglia of *Helix aspersa* 115
Immunohistochemistry, colocalization of regulatory peptides in endocrine pulmonary cells of Iberian lizard 817
—, parvalbumin-immunoreactive material in kidney of *Xenopus laevis* 75

Insect cuticle, localization of integument peptides from particular routing categories 707
Insect flight muscles, myosin filament structure, relation to paramyosin content 83
Insect glial cells, morphological developments and voltage-gated potassium channels 209
Insect hormones regulating structural changes in adipocytes of female earwig 587
Insect periptrophic membrane, larva of southern corn rootworm 431
Insulin-like peptides, identification in cerebral ganglia neurosecretory cells of *Mytilus edulis* 891
Intercellular bridges, midgut epithelium of honeybee 231
Intercellular junctions, endometrium of pseudopregnant mice 639
Intermediate filaments, cells in pressure-bearing tendons of *Rana catesbeiana* 841
——, disturbance following acrylamide treatment in cultured rat keratinocytes 43
Internalization, desmosomes, acrylamide treatment in cultured rat keratinocytes 43
Intramembrane particle (IMP), mesophyll cells in embryonic *Phaseolus* leaf 133
Iodopsin, in immunocytochemical study of visual pigments in pineal complex of Japanese quail, Japanese grass lizard and bullfrog 101
Isopods, oosorption and oocyte loss under stressful conditions 277

J

Juvenile hormone, in regulation of structural changes of female earwig 587

K

Keratinocytes, cytoplasmic desmosomes and intermediate filament disturbance following acrylamide treatment 43
Kidney, parvalbumin-immunoreactive material in, in *Xenopus laevis* 75

L

Lamprey skeletal muscle, localization of connectin epitopes 677
Larval-adult oviduct transformation, *Oncopeltus fasciatus* 785
Leaf, embryonic, mesophyll cell membranes in dry seed and initial stages of germination in *Phaseolus* leaf, freeze-fracture study 133
Lectin histochemistry on skin of hairless descendants of Mexican hairless dogs 19
Leydig cells, testis, EGF binding and 285
Lipid production, Harderian gland of female toad, effect of sex hormones 797
Liver cells, rat, *in vitro* studies of acute effects of rat growth hormone, human growth hormone and prolactin 457
Lung, colocalization of regulatory peptides in endocrine pulmonary cells of Iberian lizard 817

M

Mast cells, Harderian gland of female toad, effect of sex hormones 797
Mealworms *see Tenebrio molitor*
Membrane, porous, ascidian oocytes 403
—, recycling following removal of vasopressin in toad urinary bladder 189
Membrane domain, flagellum of *R. prolixus* spermatozoon 299
Mesenchyme cells in *Fasciola hepatica* 123
Mesonephric duct *see* Wolffian duct
Mesophyll cell membranes in embryonic *Phaseolus* leaf, freeze-fracture study in dry seed and initial stages of germination 133
Micropylar appendage of eggshell of almond wasp 569
Microtubules, association with septate junctions, *Gammarus duebeni* gill epithelial cells 767
Microvilli formation, midgut of honeybee 231
Midgut, *Diabrotica undecimpunctata*, structure and formation of peritrophic membrane 431
—, endocrine cells, light and electron microscopical study of two types in adult worker honeybee 223
—, regenerative crypts, organisation and ultrastructure in honeybee 231
Milkweed bug, larval-adult oviduct transformation 785
Mitochondria, pigeon flight muscle, effect of flying activity 57
Mitosis, rat liver cells, acute effects of rat growth hormone, human growth hormone and prolactin 457
Mollusc, terrestrial, morphological correlate of regional partitioning of integumental water absorption 421
Mouse, BDF_1, age-related changes in cytoskeletal components 447
Müllerian duct, ultrastructure in fetal rabbit 323
Müllerian inhibiting substance binding on cervical carcinoma cells, characterization 467
Muscle, skeletal, localization of connectin epitopes in lamprey, electric ray and horse mackerel 677
Muscle development, Chaetognath, quantitative and qualitative aspects of body and muscle tissue development 333
———, stereological study of fibre growth and differentiation processes 349
Mycetocyte, ultrastructure in bird cherry aphids 513
Myofibroblasts, contractile force in Dupuytren's disease 747
Myosin filaments, 3-dimensional reconstruction, insect flight muscle 83
——, substructures, arrangement and number in relation to paramyosin content of insect flight muscles 83
Mytilus edulis, insulin-like peptides in cerebral ganglia neurosecretory cells 891

N

Neuropeptide F-immunoreactivity in circumoesophageal ganglia of *Helix aspersa*, immunocytochemical localization using electron microscopy 115
Neurosecretory cells, cerebral ganglia of *Mytilus edulis*, identification of insulin-like peptides 891
Neurotransmitters, localization during development in Hydroidomedusae 523
Neurulation, chick embryo, localization of alpha-fetoprotein during 579
Nidamental gland, hydrophobic granule formation, dogfish 155
Nucleic acids, isolation from sea anemone 613

O

Olfaction, human body louse 259
Olfactory receptor neurons, correlation between dendrite diameter and action potential amplitude in male European cornborer 503
Oncopeltus fasciatus, larval-adult oviduct transformation 785
Oncorhynchus mykiss, regulatory peptides in gastric endocrine cells 309
Onychophora, junctional types 143
—, placental viviparous, oogenesis 867
Oocytes, ascidian, unusual membrane system 403
—, effect of ingested diflubenzuron on development in mealworm 439
Oogenesis, germ cell cluster and, *Coleocentrotus soldanskii* 699
—, placental viviparous onychophoran 867
Oosorption and oocyte loss, in terrestrial isopod under stressful conditions 277
Organ culture, ultrastructure of Müllerian and Wolffian ducts of fetal rabbit 323
Osmotic pressure and growth pulsations in hydroid polyp, X-ray microanalysis of ion contents in vacuoles and cytoplasm of growing tips 687
Osmotic stress, effect on structural changes in gill cells of *Gammarus duebeni* 767
Osteogenesis, bone-related matrix proteins expression by marrow stromal cell line 661
Ostrinia nubilalis, correlation between dendrite diameter and action potential amplitude in sex pheromone specific receptor neurons in male 503
——, morphological characteristics of antennal sensilla 489
Oviducts, larval-adult transformation in *Oncopeltus fasciatus* 785
Oxygen (O_2) transport, pigeon flight muscles 57

P

Paramesonephric duct *see* Müllerian duct
Paramyosin content of insect flight muscles, relation to arrangement and number of myosin filaments 83
Parasites, mesenchyme cells in flatworm 123
Parvalbumin-immunoreactive material in kidney of *Xenopus laevis* 75
Pectoralis muscle, effect of flying activity on capillary-fiber geometry in pigeon 57
Pediculus humanus corporis, tuft organs, cryofixation study of thermo-/hygrosensitive sensillum 259
Peptide routing *Calpodes ethlius* epidermis 707
Peptides, insulin-like, identification in cerebral ganglia neurosecretory cells of *Mytilus edulis* 891
Peptides, regulatory, colocalization in endocrine pulmonary cells of Iberian lizard 817
——, gastric endocrine cells of rainbow trout 309
Peripatus, apparent lack of gap and tight junctions 143
Periplaneta americana, glial cell cultures 209
Peritrophic membrane of larva of *Diabrotica undecimpunctata*, structure and formation 431
Peroxidase, eggshell of almond wasp 559
pH, effect on fibrillogenesis of collagen in egg capsule of dogfish 649
Phaseolus leaf, freeze-fracture study of mesophyll cell membranes in dry seed and initial stages of germination 133
Pheromone, correlation between dendrite diameter and action potential amplitude in sex pheromone components male European cornborer 503
Photoperiodism, study of oosorption and oocyte loss in isopod 277
Phthiraptera, tuft organs of *Pediculus humanus corporis* 259
Pineal complex, visual pigments, immunocytochemistry and HPLC analysis in Japanese quail, Japanese grass lizard and bullfrog 101
Pituitary gland, anterior, immunohistochemical study of post-natal development of folliculo-stellate cells in rat 1
——, septate-like junctions, male rat 913
Prolactin, acute effects on proliferating rat liver cells 457
Pseudomonas aeruginosa, adherence to tracheal epithelial cells, effect of anti-exotoxin A 181

Q

Quick freezing and freeze-substitution of secretory ameloblasts of rat molar tooth 29

R

Rana catesbeiana, pressure-bearing tendon, cell types and traumatic cell death 841
Rapid-freezing, in study of mesophyll cell membranes in embryonic *Phaseolus* leaf 133
Rat growth hormone, acute effects on proliferating rat liver cells 457
Reproductive system, female eastern Australian scorpion 779
Reptiles, colocalization of regulatory peptides in endocrine pulmonary cells of Iberian lizard 817
Retinal, in pineal complex of Japanese quail, Japanese grass lizard and bullfrog 101
Rhodopsin, in immunocytochemical study of visual pigments in pineal complex of Japanese quail, Japanese grass lizard and bullfrog 101

Rhopalosiphum padi, ultrastructure of symbionts and mycetocytes 513
RNA, isolation from sea anemone 613

S

S-100 protein, use in immunohistochemical study of post-natal development of folliculo-stellate cells in rat anterior pituitary gland 1
Scalariform junctions, Onychophora 143
Scolopidial organ, *Chrysoperla carnea* 249
——, functional morphology, carpenter ant 735
Scorpiones, female reproductive system of eastern Australian scorpion 779
Scyliorhinus canicula, egg capsule, collagen fibrils 385
————, effect of pH on fibrillogenesis of collagen 649
————, interaction of collagen with hydrophobic protein granules 155
Secretory ameloblasts, ultrastructure of quick-frozen ameloblasts of rat molar tooth 29
Sensillum, antennal, morphological characteristics in European cornborer 489
—, correlation between dendrite diameter and action potential amplitude in sex pheromone specific neurons in male European cornborer 503
—, single-walled multiporous, morphology and ontogeny in hemimetabolous insects 239
Septate junctions, microtubules and, *Gammarus duebeni* gill epithelial cells 767
—, Onychophora 143
Septate-like junctions, male rat pituitary gland 913
Sertoli cells, age-related changes in cytoskeletal components in BDF_1 mice 447
——, morphological changes induced by carbendazim 917
——, testis, EGF binding and 285
Sex hormones, effect on lipid content and mast cell number in Harderian gland of female toad 797
Sexual differentiation, ultrastructure of Müllerian and Wolffian ducts of fetal rabbit 323
Skin, foot surface of terrestrial slugs, morphological correlate of regional partitioning of integumental water absorption 421
Slug, terrestrial, morphological correlate of regional partitioning of integumental water absorption 421
Smith, David Spencer – a tribute 637
Smooth muscle cells, regeneration in canine and feline thoracic duct 807
Snail, hepatopancreas, localization and distribution of alkaline phosphatase activity 413
Somatostatin 25, immunoreactive cells in fish stomach 309
Somites, formation in chick embryo, localization of alpha-fetoprotein during 579
Sperm heads, acrosome reacted, calmodulin-binding protein in 849
Spermatogenesis, hormone sensitivity of germ cells in stages XIV and I of rat spermatogenic cycle 375
—, relationship with submandibular gland growth factor in C3H mice 285
Spermatozoon, bloodsucking bug, structural specialization in flagellum 299
Spinal cord regeneration, growth factor modulation of injury-reactive ependymal cell proliferation and migration 599
Stereology, study of fibre growth and differentiation processes in locomotory muscle of Chaetognath 349
Stomach, endocrine cells, regulatory peptides in rainbow trout 309
Striatal neurones, rat, phenotypic characterisation in primary culture 929
Subgenual organ, functional morphology, carpenter ant 735
——, structure in *Chrysoperla carnea* 249
Symbiont, ultrastructure in bird cherry aphids 513

T

Teleosts, regulatory peptides in gastric endocrine cells 309
Tendon, pressure bearing, cell types and traumatic cell death in *Rana catesbeiana* 841
Tenebrio molitor, effects of ingested diflubenzuron on ovarian development 439
Testosterone, effect on germ cells in stages XIV and I of rat spermatogenic cycle 375
Thermoreceptor, human body louse 259
Thoracic duct, regeneration of endothelium in dogs and cats 807
Thymus, transport of transferrin across endothelium 575
—, ultrastructural changes in adult rat after estradiol benzoate treatment 169
Tight junctions, complexity, quantification by fractal analysis 901
—, *Peripatus* 143
Tissue culture, effect of anti-exotoxin A on the adherence of *Pseudomonas aeruginosa* to hamster tracheal epithelial cells 181
——, investigation of contractile properties of Dupuytren's fibroblasts 747
Tomes' process, quick-frozen secretory ameloblasts of rat molar tooth 29
Trachea, adherence of *Pseudomonas aeruginosa* to epithelial cells in hamster, effect of anti-exotoxin A 181
Transferrin, transport across blood-thymus barrier in young rats 575
Triatomideo, structural specialization in flagellum of *R. prolixus* spermatozoon 299
Trisomy 16, murine, long-term intracerebral transplants of fetal hippocampus, failure to exhibit Alzheimer's disease neuropathology 477
Trisomy 21 *see* Down's syndrome
Tubulo-vesical system, quick-frozen secretory ameloblasts of rat molar tooth 29

U

Urodacus manicatus, female reproductive system 779

V

Vacuoles, measurement of ion contents in growing tips of hydroid polyp 687
Vasopressin (ADH), surface membrane remodeling following removal in toad urinary bladder 189
Vesiculated cells, midgut of adult worker honeybee 223
Vibration reception, carpenter ant 735
Vimentin, age-related changes in BDF_1 mouse Sertoli cell 447
Vitellogenesis, effect of diflubenzuron 439
—, and oocyte loss in terrestrial isopod 277

W

Water absorption, terrestrial slugs, morphological correlate of regional partitioning of integumental absorption 421
Water flow, surface membrane remodeling following removal of vasopressin in toad urinary bladder 189
Wheat germ agglutinin, in investigation of peritrophic membrane of *Diabrotica undecimpunctata* larva 431
Wolffian duct, ultrastructure in fetal rabbit 323

X

X-ray microanalysis of ion contents in vacuoles and cytoplasm of growing tip of hydroid polyp as related to osmotic changes and growth pulsations 687
Xenopus laevis, parvalbumin-immunoreactive material in kidney 75

INDEX OF AUTHORS VOLUME 26

A

Abrahamsohn, P. A. *see* Andrade, Savino, Abrahamsohn and Zorn 639
Agey, P. J. *see* Mathieu-Costello, Agey, Logemann, Florez-Duquet and Bernstein 57
Akhtar, S., and Van Emden, H. F. Ultrastructure of the symbionts and mycetocytes of bird cherry aphid (*Rhopalosiphum padi*) 513
